

TORONTO INSURANCE CONFERENCE PROFESSIONAL DEVELOPMENT SEMINAR

"Cyber Risk and Fraud"

Wednesday, September 9, 2009

This year, TIC's Professional Development Seminar will explore the rapidly changing and continually evolving topic of **Cyber Risk and Fraud** from the perspectives of four professionals in the areas of:

*** Risk Management * Law * Insurance Underwriting * Claims ***

Identity theft and invasion of privacy are the fall out of today's fast-paced proliferation of information in our business and everyday lives. Personal information is commonly accessible everywhere we turn; at banks, mortgage companies, etc. We all have concerns about the risks but the answers are not black and white.

- How do we control or even foresee how this growing issue will evolve?
- What are some examples of issues and emerging trends in the claims area as a result of cyber liability?
- How do we guard against intentional or accidental copyright or ownership infringement?
- What controls are now in place with respect to risk and disaster recovery plans?
- What constitutes appropriate action under existing Canadian regulations?
- How do we assess risk and what are some existing or emerging products?

These are just a few questions that will be examined at what promises to be a dynamic and enlightening seminar. Don't miss this opportunity to become informed in the luxury of the Four Seasons Hotel, over breakfast, while earning valuable RIBO credits*. We expect this year's seminar to provide TIC and RIMS Ontario members with a wealth of information to discuss within their own firms for weeks to come.

***Note: RIBO credits are for brokers only.**

DATE:	WEDNESDAY, SEPTEMBER 9, 2009
LOCATION:	THE FOUR SEASONS HOTEL, 21 AVENUE ROAD, YORKVILLE
TIME:	8:15 to 11:45 am
RIBO CREDITS:	TBA
COST:	\$50.00 (GST included) (Registration Form below) Maximum attendance: 75 people.
PURPOSE:	TIC hosts an annual professional development seminar to provide its members with an informative and educational opportunity to explore relevant and timely insurance issues.
AUDIENCE:	The seminar is directed towards senior staff, managers, or any staff who have an interest in staying on top of current issues facing commercial brokers and risk managers today.

This event will fill up quickly. Print off the attached registration and send it in NOW!
